Why shouldn't you tell ducks jokes on April Fools' Day?

They'll quack up.

I lost all my winter weight.

Now I just have spring rolls.

Director of Programs Message:

Hello everyone,

Looking back at March, we had a busy and successful month in the recreation world. We made it through many various outbreaks, had some amazing musical church services, some creative spring crafts, lots of fun socials and much more!

We had a very memorable St Patrick's event on March 16th. Irish School of Dance came to Oakcrossing LTC to dance. It was a huge success, and many residents, staff and family members are still talking about it. Looking forward to seeing what April has in store for us!

 Emily Haskett (DOP) ehaskett@peoplecare.ca

Welcome to Oakcrossing

Brigitte Greenslade – White Pine William Gohm – Sugar Maple Marion Gaukrodger – Red Oak Joan Hudson – Juniper Harry Quigley – Norway Spruce Roberta Sweet – Sugar Maple

We look forward to getting to know you.

Upcoming Council Meetings Next <u>residents' council</u> meeting is April 9th @10:45am in the back lounge of Norway Spruce.

Next **family council meeting** is

Wednesday May 15th @ 7:00pm via zoom. Zoom link will be sent the week of.

April Jokes

- 1. What kind of shoes do frogs wear when spring comes?
- 2. Why don't eggs play April Fools' pranks?
- 3. How do you plant a kiss in April?
- 4. Why shouldn't you tell duck jokes on April Fools' Day?
- 5. What do bees use to fix their hair?

Happy Retirement Lori & Welcome to Oakcrossing Loveth

Left: New Physiotherapist, Loveth. Right: Lori

Greetings from the Executive Director,

The first day of spring brought us cold weather!! I was looking out my window and noticed the daffodils coming up in hopes to see the beautiful yellow blooms. Hopefully they will come when the weather changes to a little warmer again. I think we were spoiled by those a few days of warmth.

We have been busy with the air conditioning installation and getting ready to launch the Butterfly model. We have had guests in the home to give us samples of a door covering and a small area of the wallpaper on Juniper. Can not wait to see when we get the rest of the doors done on the unit. Small changes make such a difference in our home areas.

As an organization we are working on our Strategic planning for the next 3 years, working on our mission vision values statement. Can't wait to share once it is completed.

We will be enhancing education for our registered staff and leaders this year to support Leadership skills. Some staff have been participating in GPA training. We have hopes to have some opportunities for some more sessions to support our delivery of care to you and your loved ones.

If you have any questions feel free to reach out.

Deb Sims Executive Director dsims@peoplecare.ca

April Famous Birthdays

If you were born between April 1–19, you are Aries, the Ram. These independent adventurers like to strike out on their own and are natural leaders. Their enthusiasm and confidence give them big, outgoing personalities. Those born between April 20–30 are Bulls of Taurus. Bulls show a steady persistence in endeavors both professional and personal, and after working hard, they like to reward themselves for a job well done.

IPAC CORNER

You may have seen signs that pop up on resident room doors in our home. These signs show how visitors, staff, and residents can remain safe by stopping the transmission of communicable diseases like Influenza, COVID-19, RSV, and other viruses and bacteria that can make us sick. It is important to follow the instructions on these signs, and if you are ever unsure, ask one of our staff members. They will be happy to help you to remain safe. Below are signs you might see in our home. It is referred to as Droplet Contact. These signs are in place on resident room doors when there is the possibility of 'catching' something that could make us ill while in the room. In this case, the illness is transferred by tiny germs that float in the air. They can also live for hours on hard and soft surfaces in the room. These germs come from coughing, sneezing, and nasal secretions, but can also come from simply breathing. These signs show us how to remain safe by using the personal protective equipment that we need to enter the room.

The Difference

I sit and watch the world go by, A world of varying people, Seldom are there two alike For everybody is different.

Their needs and wants are not alike, Their dress, it does differ. Beneath it all there is a need For all the live and love.

So maybe we're not so different, Maybe we are all alike. For the need to love is in us all Whether old or very young.

Our looks and dress is different But our feeling are the same. The needs, the wants, the urges Mean we vary not at all.
